

**Special Note** ~ Please check on availability for either option.

*Hiring an additional photographer* ~ They are a great option as they will allow for assistance to the main photographer, shooting of the same moment from multiple angles, the ability to be in two different places at the same time, and the allowance for some additional creative options. Depending on what your vision is for photographic coverage we are able to offer two different levels of service.

### **Option 1**

The “assistant photographer” will shoot and assist Justin with the duties of the day (usually photographing 50% and assisting 50%). Typically the assistant photographer will work for the first three hours that include the preparation, ceremony, and formals. Here are a few questions that are geared to help you decide whether hiring an additional photographer would be recommended.

*Preparation* ~ These two questions assume you would like pictures of you and your fiancé getting ready.

- Do you have flexibility in what time you each start getting ready?
- Are you getting ready at the same location or fairly local to one another?

*Ceremony*

- Is the ceremony longer than twenty minutes?

*Portraits*

- Are you able to allocate a few extra minutes to the portraits?

If you answered “no” to any of these questions then we would probably recommend a second photographer. Of course every wedding is unique, so in your pre-wedding consultation we take a closer look at your day’s schedule and ask more questions like these to determine if a second photographer is a necessary expense. To see how to calculate the additional expense, view the [Assistant Photographer PDF](#).

### **Option 2**

The “partner studio” option is adding a fellow wedding photographer from our partner studio to your wedding day coverage. This allows is the ultimate in coverage because it allows for two separate photographers to come up with a dual coverage plan for your entire wedding. It also is only offered within our wedding Collection Four Package and includes additional lighting scenarios, extended hours of coverage, and an Instant Gratification slide-show, which showcases images of your wedding during your reception.

In both options we work with you to decide how to best allocate two photographers during the wedding to assure the best wedding coverage available. If you are interested in Option 2 and would like to view some of our partner studio’s gorgeous portfolio, please let us know and we will direct you to it.
